Mr. Norris Jeffrey has his sound system tested and ready to go for movies in the park.

Mr. Mack Currence would like to see a sign at Lake Charles Pier similar to the one at the basketball court. He would also like us to consider additional streetlights around the pier.

**Council Actions:**

Storage of the ice cream cart is not an issue. The Mute Swan permit was rescinded.

**Ponds:**

Mr. Norris Jeffrey discussed area duck drive-by feedings that are occurring in VOLP. Several of the Pond Committee members are working on fishing guidelines that will be presented at the next Pond Committee meeting.

Mr. Jeffrey was also asked to give a presentation to the Garden Club to help educate its' members on the environmental issues facing our ponds. He suggested that we consider turning the hillside at Veterans Pond into a meadow. By changing the hillside, runoff and erosion would be minimized.
